

# Livermorium

## ***Livermorium Day***

**First Annual Community Celebration on Friday, May 30, 2014**

*The City of Livermore, Lawrence Livermore National Laboratory and the Livermore Valley Joint Unified School District will be hosting a day of events – both online and downtown to celebrate the first anniversary of Livermorium Day.*

*Livermore Mayor John Marchand proclaimed May 30 Livermorium Day to recognize the discovery of chemical element 116 which was named in honor of the City and Livermore researchers who discovered Livermorium. Livermore is one of only six cities around the world for which an element has been named.*

**9:30am – 10:30am**

### **Google Hangout with Scientists, Students, and Community**

Granada High School and Christensen Middle School will join the Mayor and LLNL scientists online for a live video conversation using Google Hangout. The public can watch “Livermorium Day: Celebrating Scientific Discovery” live on Google+ and contribute to the conversation on Twitter by using the #Livermorium hashtag.

*The Livermore Public Library Civic Center will be projecting the online conversation in the Library’s Community Room, preceded by a brief introduction to Twitter.*

*Community members interested in participating in the Twitter chat at the Library should bring a laptop or mobile device capable of connecting to the Internet via Wi-Fi and arrive no later than 9:00am or join in via Twitter #Livermorium.*

**4:00pm – 5:00pm**

### **Celebration at Livermorium Plaza at Mills Square Park**

116 South Livermore Avenue, Livermore  
(First Street & South Livermore Avenue)

*Program includes guest speakers, presentation of Alameda County Science and Engineering Fair Winners and the unveiling of three Livermorium conceptual artworks.*

*Light refreshments to follow*
